

Remarks

In response to the communication requiring election of a single polynucleotide sequence, Applicants elect Cyclin B, as set forth in Table 3, page 16, with traverse. As the claims require a minimum of 10 sequences, Applicants respectfully submit that a meaningful election cannot be made of a single sequence.

Should the Examiner require an election of ten sequences, Applicants elect the ten top-ranked sequences as set forth in Table 3: Cyclin B; ATP synthase, H⁺ transporting, mitochondrial F1 complex, delta subunit; CDC28 protein kinase 2; formin-binding protein 17; ribosomal protein S9; phorbolin-like protein MDS019; tumor necrosis factor (ligand) superfamily, member 7; RNA helicase; disrupter of silencing 10; and heat shock 27kD protein 1.

The Commissioner is hereby authorized to charge any fees under 37 C.F.R. §§ 1.16 and 1.17 which may be required by this paper, or to credit any overpayment, to Deposit Account No. 50-0815, order number STAN-277.

Respectfully submitted,
BOZICEVIC, FIELD & FRANCIS LLP
